GYPSUM IN CALIFORNIA (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Gypsum in California Dear Sir: I have the honor to transmit herewith Bulletin 163, Gypsum in California, prepared under the direction of Olaf P. Jenkins, Chief of the Division of Mines. Gypsum represents one of the important nonmetallic mineral commodities of California. It serves particularly two of California s most important industries, agriculture and construction. In Bulletin 163 the author, W. E. Rev Planek, a member of the staff of the Division of Mines, has prepared a comprehensive treatise covering all phases of the subject: history of the industry, geologic occurrence and origin of the mineral, mining, processing and marketing of the commodity. Specific Gypsum properties were examined and mapped. The report is profusely illustrated by maps, charts and photographs. In the preparation of the report it was necessary for the author to make field investigations, laboratory and library studies, and to determine how the mineral is used in industry as well as how it occurs in nature and how it is mined. This bulletin represents one of the results of the program of mineral commodity studies in which the Division of Mines is engaged. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
